Q1 / As programming concepts with open and create a file. It is better to close the file after you have finished working with it. Why?

Sol / to release resources management and for using by other one in the system

Q2 / Write a program in PHP to create a file contains 5 short sentences then read each character and print it in a single line.

Sol /

```php
<?php
    $myfile = fopen("newfile.txt", "w+");
    $text = array(
        "Hello  World ",
        "This is a new file ",
        "this is the solution of Q2 in lec 6",
        "I am writing to it again",
        "I am writing to it again"
    );
    foreach($text as $line){
        fwrite($myfile, $line . "\n");
    }
    rewind($myfile);
    while(!feof($myfile)){
        $line = fgetc($myfile);
        echo $line;
    }
    fclose($myfile);
?>
```
